

Inside the Human Machine

Medical & Biomedical STEM Summer Program

Get ready to explore the human body like never before.

In this hands-on STEM camp, you won't just learn—you'll build, test, and experiment. From bones to brains, you'll discover how the body works and what it takes to fix it when something goes wrong.

What to Expect:

- Build and test strong bones
- Design your own prosthetic hand
- Try out surgery simulations
- Discover how the brain and muscles work together
- Meet real medical professionals
- Think and experiment like scientists and engineers

June 29, 30 & July 1
10:00 a.m. - 3:00 p.m.

Sparta Community Hospital
Broadway Plaza
Auxiliary Room A & B
203 S. Vine Street - Sparta

For Rising 7th–9th
Grade Students
(Current 6th–8th Grade)

Cost is Only \$15.00/Student
Due Day of Event

This isn't just learning—it's doing.

From problem-solving to creativity, students will step into the world of healthcare and biomedical science in a way that's fun, engaging, and unforgettable.

SPACE IS LIMITED!
